

"ROGERS-PEET."

Their suits this season are finer than ever. The fabrics are of that ultra-fashionable character seldom seen outside the shops of the finest merchant-tailors. Every detail of the workmanship is beyond all criticism.

\$18 to \$30.

Sole Agents for Rogers, Peet & Co., Broadway and Fifth Ave., N. Y. Morgan.

STRIKERS OBTAIN WORK AGAIN.

Sixty Teamsters Re-enter Employ of St. Louis Transfer Company.

Pursuant to the action of Teamsters' Union, No. 178, at its meeting Wednesday night declaring off the strike it has been waging against the St. Louis Transfer Company for the last five weeks, sixty teamsters, all of whom applied, obtained their former employment from the company yesterday morning.

The effect of the settlement was apparent at the office of the company. The St. Louis teamsters, which have heretofore been empty and surrounded by police, have assumed a more peaceful aspect and are filled with freight collected in the course of the day. Many of the men during the strike had obtained other employment, which accounts for the comparatively small number who reported for work.

In treating with the strikers, President Tammey said he recognized only his former employees and made the proposition to pay \$4 to them as such. What action the other companies who signed with the union according to pay \$5 will take has not been determined.

SEVEN NEW CARRIERS ADDED.

Better Mail Service in Residence Section.

Postmaster Baumhoff yesterday added seven carriers to the district between Chouteau and St. Louis avenues east of Grand avenue in carrying out his intention to give all resident parts of the city five regular deliveries of mail daily, and one additional late delivery in the business section.

In all forty-five mail carriers will be added to the city. Twenty more will be added later for service in the district between Russell and Chouteau avenues and east of Grand avenue. Hereafter there have been four deliveries daily. With the new mail carriers, Baumhoff hopes to have the free-delivery system working smoothly throughout all the residence sections.

AGAINST THE TRANSIT COMPANY.

John F. Ruth Obtains Verdict for \$2,000 Damages.

The jury in the suit of John F. Ruth for \$2,000 damages against the St. Louis Transit Company for being arrested as the result of trouble between him and a conductor about a fare, returned a verdict yesterday in Division No. 3 of the Circuit Court against the company for the full amount sued for. The trial of the case began last Wednesday. Ruth stated that he got on a car on Ches avenue, near Twenty-first street, February 2 last, and that the conductor refused to take the fare he offered, and had him arrested. He was discharged in the Second Division Circuit Court. He averred. The conductor claimed, the evidence developed, that Ruth offered him a smooth nickel.

Do You Have Headache?

COLOR QUESTION COMES UP TO-DAY.

Missouri Clubwomen Are Expected to Pass Upon This Problem.

CATHOLIC SOCIETY RULED OUT.

Because of Clause in Its Constitution a Reading Circle Is Not Permitted to Join the Federation.

REPUBLIC SPECIAL. St. Joseph, Mo., Oct. 24.—The convention of the Federation of Women's Clubs to-day was devoted to routine business and the reading of papers and preparations for the work to-morrow. The admission of negro clubs into the federation will then come up for disposition, and the Philadelphia Hall proposition will be voted upon.

It is not likely that much time will be needed to dispose of the negro club admission matter. The sentiment of the delegates seems to be strongly against an intermingling of the races, and it will be a great surprise to those who have watched the progress of the color question in the past.

The St. Louis ladies continue active in their efforts to interest the delegates in the Philadelphia Hall memorial for the Louisiana Purchase Exposition, and the indications to-night are that they will score a signal victory on the floor of the convention to-morrow.

Interviews with a number of the leading club women in attendance and of the delegates from all parts of the States led to the belief that there will be comparatively no opposition to this plan, although it is admitted that there is a possibility of some other project being launched at the eleventh hour. Care will be taken to prevent this, for the representatives from a number of other cities have been invited to attend.

Barred because of constitution. Considerable talk is instituted in the city because of the ruling of the State officers, that the Maurice P. Burke Reading Circle membership is ineligible to membership because it is composed entirely of Catholic women. The objection to the ruling is based on the fact that the Jewish clubs of St. Louis are admitted. But the State officers say the clause in the constitution of the Burke Club which says it was organized for the dissemination of Catholic literature is what constitutes the bar.

Interest in the election of officers to-morrow is warming up and that will perhaps be one of the most important features of the convention. It is understood that Mrs. Harrison will decline re-election, and several candidates for the position have been mentioned. Mrs. Philip U. Moore of St. Louis is believed to be a leading candidate. The name of Mrs. L. P. Munger will also receive attention at the hands of the nominating committee.

An interesting programme was rendered at the concert given at the Tootle Theater to-night complimentary to the visitors. At the conclusion a reception was given at the Elks Club.

St. Louis Woman's Report. One of the important matters before the body to-day was the report of Mrs. W. E. Pearson, who is in charge of the industrial committee on factory inspection.

According to the report Missouri is the largest manufacturing State west of the Mississippi River, and ranks seventh in the amount of capital invested in productive enterprises. Figures were given showing the number of female employees in the various manufacturing establishments of the State, and a comparison of the wages paid to males and females. The report criticizes the enforcement of the State factory inspection law, and says that of 45 inspections made in eleven cities of the State only thirty-eight orders for any change were made. As a test of what might be done the Wednesday Club of St. Louis employed an ex-State inspector to inspect the city.

It was stated positively to-night that Mrs. Philip U. Moore of St. Louis is to be elected president to-morrow, and that the next convention will be held in Kansas City.

IN TOUCH WITH MISSIONARIES?

Reported That Missionaries Have Reopened Communication.

Constantinople, Oct. 24.—According to dispatches received to-day, the missionaries who are operating from Samakof, Bulgaria, are at last in touch with the brigands who abducted Miss Stone. The information is correct, and the news is highly gratifying to the officials here. They hope the information is correct, and the news is highly gratifying to the officials here.

Whether negotiations for the ransom have actually been opened is not disclosed. The missionaries of the state are expected to conclude the business with the utmost dispatch.

WASHINGTON UNIFORMED. Washington, Oct. 24.—The news that the missionaries operating from Bulgaria are in touch with the brigands who abducted Miss Stone is highly gratifying to the officials here. They hope the information is correct, and the news is highly gratifying to the officials here.

RENEWED INTEREST IN CATHOLIC ENTERTAINMENT IN EXPOSITION HALL.

The river parishes' bazaar at the Exposition was well attended last night. All booths were busy throughout the evening, and the flower girls had more orders for bouquets than they could fill. The rolling contests for the most popular young lady, they all say so.

Not Only in St. Louis, but in Every City and Town in the Union.

If the reader took the time and trouble to read the advertisement for the "Rolling Contest" given below, he would obtain the answer. If he would read the statement of the lady who won the contest, he would see that it was not only in St. Louis, but in every city and town in the Union.

KEANE—On Wednesday, October 23, 1901, at 2:30 o'clock a. m. Annie Keane, beloved wife of John Keane, aged 40 years. Remains will be shipped to Lexington, Ky., for burial Friday, October 25, at 2 p. m. in the cemetery at Lexington, Ky. Papers please copy.

GROCERY EMPLOYEES SMOKED.

Gave an Entertainment at Fraternal Hall.

Members of Local No. 434 of the Retail Grocery Employees' Union entertained a large number of their friends at a smoker and entertainment held at Fraternal Hall, corner of Eleventh street and Franklin avenue, last night. The Colby Hotel was opened with an address giving a brief history of the organization and outlining the benevolent work of the union. The speaker, who he said, was not generally understood, L. A. Woodward, past president, spoke of the early days of the union, which is being agitated by the union. Louis Rosen of the "Travelers' Protective Association" was introduced, and congratulated the lodge on its rapid growth and the good work accomplished in gaining a membership of 300 in a year.

The amusement features of the programme were well received. M. Noel Popinger rendered a piano solo. D. Paugner sang a diverting monologue and the Knickerbocker Quartet furnished the vocal music. After the programme was completed many of the visitors made application for membership.

ILLINOIS MANUFACTURERS. Annual Meeting and Banquet Addressed by John A. Kasson.

Chicago, Oct. 24.—Six hundred business firms were represented at the annual banquet of the Illinois Manufacturers' Association, which was held this evening at the Grand Pacific Hotel. The programme was opened with a speech on the evening and that was by John A. Kasson of Iowa, the diplomatic and tariff expert, who spoke on "Reciprocity."

Martin H. Madden of Chicago, president of the association, made a short address. Introducing Mr. Kasson, who was received with much applause by the guests as he took his seat at the head of the table.

The members of the Illinois Manufacturers' Association had expected to have President Roosevelt as the guest of honor at the banquet to-night, as he had made a partial agreement to be present and deliver a short address.

A number of informal speeches were made after the conclusion of the address of Mr. Kasson.

WILL PLEAD FOR BOER PRISONERS. Member of General Botha's Staff Expects to Intercede With Roosevelt in Their Behalf.

Washington, Oct. 24.—General Samuel Pearson, who is Adjutant on the staff of General Botha, one of the Boer leaders, arrived in Washington to-day, an idea staying at the apartments of Cornelius W. Van Der Hooght, the Boer representative in Washington.

During a visit to Europe before coming here, General Pearson had interviews with Lord Leycester, the British ambassador, and with other leading men from the South African Republic. He says the Boers will not give up to the British, but will fight to the last.

General Pearson hopes to enlist the sympathies of the people of this country in behalf of the Boer men, women and children who are now in the hands of the British. He says that there are now 10,000 Boers in the hands of the British, and that the mortality among them is approximately 2,000 in all.

He says the Boers are willing to submit to the hardships of the campaign and to the rules of war, but of helpless men, women and children in the camps he says they should be accorded humane treatment.

As the American Consul at Pretoria, a comparison of the wages paid to males and females. The report criticizes the enforcement of the State factory inspection law, and says that of 45 inspections made in eleven cities of the State only thirty-eight orders for any change were made.

As a test of what might be done the Wednesday Club of St. Louis employed an ex-State inspector to inspect the city. It was stated positively to-night that Mrs. Philip U. Moore of St. Louis is to be elected president to-morrow, and that the next convention will be held in Kansas City.

APARTMENT-HOUSES IN THE PALACE.

Magnificent Structure for Rich Flat Dwellers Only in New York City.

FASHIONED AFTER A CHATEAU.

It Takes \$10,000 to Pay the Rent for One of the Finest Suites, but Tenant Has a Palace for a Home.

REPUBLIC SPECIAL. New York, Oct. 23.—There has just been completed on Riverside drive, which is the most magnificent apartment-house in the world. It is a nine-story building, its skeleton presenting much the general outline of the Union Trust building or the Plunkett Hotel in St. Louis, and the apartments are in suites of from ten to twenty rooms.

It is to be the dwelling for people with large incomes, the yearly maintenance of the apartments ranging from \$2,000 to \$10,000 a year.

For the latter sum (\$833.33 monthly, in advance, plus one may enjoy an extensive view of the noble Hudson; tread the tessellated floors of a transplanted Chateau; dine in a room with a view of the city through a lofty hall of Cordova leather hangings; pause in a dainty reception room with walls hung with tapestries; gaze over a billiard-room; rest in a library done in Austrian oak with natural birch paneling with dull, faded, naïve, and self in a large dining-hall; find refreshment in a conservatory; rest in any one of five elegant, furnished, bed chambers; bathe in any one of the five bathrooms, having marble floors, walls and ceilings; listen to the music of the piano in a room; pass over the four marble-roofed, servant's quarters; dine in a room; and return to the large drawing-room, finished in Circassian walnut and mahogany.

This is my own, my humble home. Nor is this all. Together with the few other apartments, the building has a most beautiful view of the city from the top of the building. The building is a masterpiece of architecture, and the tenant has a palace for a home.

Fashioned After French Chateau. Apartments of twenty rooms give more room than five-story private houses. The wall coverings, auditions, door-knocks, and what not are from exclusive sources. The electric effects are superb. The floor plans, windows, hallways and the like are so ingeniously planned that dark passages are avoided, and the most delightful light effects have been eliminated.

Just about a year ago a small army of workmen started the excavations for this structure. The building is a masterpiece of architecture, and the tenant has a palace for a home.

It may indeed be said that the efforts of the architects have been directed toward the most beautiful view of the city from the top of the building. The building is a masterpiece of architecture, and the tenant has a palace for a home.

The exterior of the building is rarely beautiful for a New World structure, being a reproduction of the Chateau Blois, the famous palace of France.

Many of the details of ornamentation are a duplication of those of the Chateau Blois, the famous palace of France.

The tower ensemble suggests domestic regality, rather than the utilitarian type of the modern building.

Passing through a massive pair of monumental iron gates, swung from huge stone pillars, each of which is a masterpiece of sculpture, the visitor enters a great hall, where a great antique wrought-iron chandelier catches the attention as one enters the hall, which is a masterpiece of sculpture.

At the sides of the entrance doors are granite statues.

The entrance doors of green bronze, suggesting in their design the "transition from the old to the new," are a masterpiece of sculpture.

A beautiful wrought iron and bronze screen, which is a masterpiece of sculpture, is a masterpiece of sculpture.

The ceiling is a masterpiece of sculpture, and the tenant has a palace for a home.

The ceiling is a masterpiece of sculpture, and the tenant has a palace for a home.
